Read this material before using this tool and its accessories.

Failure to do so can result in serious injury. SAVE THIS MANUAL.

BRAKE KIT USER GUIDE

Read the **ENTIRE WARNING** section of this manual before using the tool or its accessories.

Operating Instructions

1. This service kit will work with most model vehicles. See the list of parts for a description of which components will work with your make and model.
2. Read the vehicle owner's manual to determine which Disc and Thrust Bolt to use.
3. Raise and safely secure vehicle.
4. Remove the wheel and brake caliper.
5. Remove the worn brake pads and hardware.
6. Service the caliper according to the vehicle manufacturer's instructions.
7. Move the T-handle of the Thrust Bolt to one side and slide the plate over the T-handle then down the Thrust Bolt, until it rests on the shoulder of the bottom of the Thrust Bolt.
8. Apply the correct Disc to the two pegs on the bottom of the Thrust Bolt (the magnet will hold it in place).
9. According to the vehicle manufacturer's instructions, screw the piston into the caliper.
10. Reassemble caliper, brake pads and wheels.

Note: Test the brakes thoroughly before use.

11. Clean and store the service kit indoors out of children's reach.

Maintenance and Servicing

CAUTION: Damaged tools and accessories can fail, causing personal injury. Do not use a damaged product.

- > Before each use, inspect the condition of the tool and its accessories. Check for misalignment or binding of moving parts, cracked or broken parts, and any other condition that may affect its safe operation.
- > After use, clean external surfaces of the product with clean, moist cloth.
